

Brief – Expert Advice Funding

Citizens Lab – Expert Advice Funding

[Citizens Lab](#) is a project which aims to promote active citizenship, empower civil society and promote and serve as a watchdog for human rights and democratic principles. We have created a website to function as a hub for NGOs and for members of the public to connect that will serve to strengthen the capacity of civic voices. The platform can be used to air ongoing concerns that threaten our democratic rights, human rights and rule of law and to gather support for advocacy events. It will also serve as a central point of reference of happenings in the civil sector and the what is happening in the community.

Citizens Lab also has **funding** for civil society (individuals and NGOs) to obtain expert advice to support them in their advocacy initiatives. Such activities may include, but are not limited to:

- Research-based advocacy
- Gathering of public opinion data
- Promotion of media literacy
- Monitoring of respect of human rights and democratic principles
- Advocacy of human rights

Funding for expert advice

NGOs and Individuals are eligible for this funding which is available until December 2023. Experts can include lawyers, conservationists, financial consultants, funding experts, advocacy experts etc.

Examples of initiatives eligible for funding include:
